English

### PROFILE

A passionate and experienced developer with 4 years of hands on experience in building innovative web applications. Proficient in both frontend and backend technologies, with a passion for learning and adapting new technologies like AI. I'm skilled in MERN stack with a proven track record of delivering high-quality solutions on time. I have excellent problem-solving skills, team collaboration and always learning and staying up-to-date with industry trends.

### WORK EXPERIENCE

#### MERN Stack Developer

AutoAdvisers

July, 2022 - December 2023

- Built and delivered full-scale MERN stack applications from scratch, including multi-vendor dashboards with role-based access and advanced product management.
- Integrated AWS (Cognito, S3) and Firebase for secure, scalable cloud solutions, while implementing GoPayFast and Stripe for seamless payment processing.
- Optimized applications with PWA and performance tuning, boosting speed by 90% and ensuring a smooth, modern user experience.

#### MERN Stack Developer

Machine intelligence 6

Jan, 2024 - Present

- Leading a development team to deliver scalable, high-performance applications, ensuring code quality, best practices, and timely delivery.
- Implemented AI-powered solutions with Tesseract, TensorFlow, and OpenAI, driving innovation and enhancing product capabilities.
- Developed innovative solutions using React.js, Next.js, Node.js, and Nest.js, combined with modern UI frameworks (MUI, Tailwind, ShadCN).
- Designed and deployed dashboards on AWS (EC2, Lightsail), ensuring secure, reliable, and efficient infrastructure.
- Built real-time features with Socket.io and managed complex application state using Redux Toolkit and Zustand, delivering seamless user experiences.

### PROJECTS

Successfully delivered 20+ large-scale projects, primarily confidential enterprise dashboards, along with several notable publicly available solutions.

- AutoAdvisers Multi-vendor marketplace for automotive industry
- Glizzy-Glamification Multi-vendor gaming platform
- Tib-Telemedicine Online medical platform
- AhyaOS AI based platform for carbon pollutions
- Albusayra International agency that provides trained riders.
- Skyline University International University LMS.
